### Commodore's Comments

Ed for Mike who is recuperating: We had a wonderful, clear, sunny day with very good visibility and light winds. There were a few fishermen in the way, as always. Bob's course proved very challenging. Finding R28 after the Diamond Marker waypoint was especially tough. It was more so after the 360 degree turn. Noting that it was just past Pier 4, and that Pier 4 had ships with distinctive funnels helped (spotted as we approached LL2). A contestant is constantly working during a "Bob" contest.

N19 is still "missing" and R16A is also gone. We noted last month that R16A appeared to be sinking. Apparently, it's out for maintenance.

Bob went to the wrong place. That explains his score. Garry and I ended up four seconds of error apart. Reduce his by four or increase mine by four and the place changes.

I hope to see you next month on May 10th. It's a Garry contest, modified by the loss of N19. It requires a great attention to detail. The challenge is in getting the currents correct, the turns precise and not wandering.

### Vice Commodore's Comments

Another great day on the water with mild conditions and currents you could read. However, the challenge came in the form of Bob Ehlers, who wrote the race, with the usual plethora of lat/longs. Throw in a 360 turn and you've got a recipe for some big scores. Right Bob? There was no one under 1% but Ed was real close with a 1.08 which gave him his 4<sup>th</sup> win in a row! I'll be looking for him next month when the race is down in my territory.

Lunch at SDYC was another great feed that Bob arranges for us, but don't forget the great lunch that CCYC always throws for us on the covered patio. Be sure to call me well ahead of time if you plan on bringing your boat down to the Cays.

See everybody next month.
